Investment Policy Statement

Client mandate and portfolio governance limits

DOCUMENT VERSION	**IPS v2**
EFFECTIVE DATE	**18 July 2026**
CLIENT	**Aurora Family Office**
STATUS	**Approved for demonstration**

Mandate summary

This revised statement tightens the cryptocurrency maximum and expands the measurement scope. Monitoring systems must identify the semantic change, re-evaluate affected controls, and preserve unaffected check history.

4.2 Cryptocurrency exposure

Binding client mandate - reviewed quarterly and on every source revision

MANDATE RULE

Total cryptocurrency exposure may not exceed 5%. Total exposure includes direct holdings and look-through exposure through funds, ETFs, and derivatives.

MAXIMUM	**5.0%**
MEASUREMENT SCOPE	**Direct holdings plus look-through exposure**
REVIEW TRIGGER	Any measured exposure above the maximum requires compliance review.

Interpretation

Look-through exposure must be included whenever the underlying cryptocurrency exposure is available or can be reasonably measured. A breach requires human compliance review before any remediation or communication is executed.

Monitoring appendix

Synthetic portfolio evidence snapshot - 18 July 2026

Measure	Observed	Mandate reference	State
Direct cryptocurrency exposure	2.0%	See section 4.2	Observed
Indirect / look-through crypto	6.2%	See section 4.2	Observed
Total cryptocurrency exposure	8.2%	See section 4.2	Calculated
Largest issuer exposure	18.7%	Maximum 20.0%	Near limit
Liquid allocation	6.4%	Minimum 5.0%	Pass

Evidence note

These values are synthetic and are included to provide stable, reviewable evidence for the NodeWitness demonstration. They are not client records and must not be used for investment decisions.
